

ALIF FADILLAH UMMAR

JUNIOR WEB DEVELOPER

Karawang, West Java, Indonesia | +6281361415931 | arszalzdarker@gmail.com | [LinkedIn](#) | [Portfolio Website](#)

SUMMARY

Results-driven IT graduate and full-stack developer specializing in industrial automation and smart manufacturing systems. Skilled in building reliable web applications with PHP frameworks, integrated with IoT hardware (RFID) and computer vision (YOLO) for HSE compliance. Proven track record turning manual workflows into trusted digital solutions for enterprise and academic institutions, backed by strong communication and leadership honed as Head of Laboratory Assistant and a community organizer.

EXPERIENCE

System Developer Intern

January 2026 - Now

PT. AT Indonesia | Karawang, Indonesia

- Developed a real-time PPE detection system using YOLO to enhance safety compliance in the Kaizen area.
- Built a lightweight native PHP E-Checksheet system from scratch, cutting paper usage by 70% and streamlining QR-code generation for 300+ units within strict internal server constraints.
- Designed a web-based Contractor Safety System, speeding up approvals by 80% via remote access and cutting admin workload by 50% through automated risk filtering and violation tracking.

Web Developer Intern

March 2025 - June 2025

PT. Century Batteries Indonesia | Karawang, Indonesia

- Developed a maintenance management system using CodeIgniter, improving data-recording efficiency for the maintenance department.

Head of Laboratory Assistant

January 2025 - January 2026

Fasilkom Unsika Laboratory Assistant | Karawang, Indonesia

- Maintained lab hardware and assisted lecturers in supporting students.

Chairman of Youth Organization

August 2022 - March 2023

Karang Taruna Aruna Wira Bhakti | Karawang, Indonesia

- Led local youth volunteers in planning and executing community events, including Indonesian Independence Day (17 Agustus) celebrations, managing budgets and volunteer coordination.

EDUCATION

Bachelor of Science in Information Technology

Sep 2022 - Mar 2026

Universitas Singaperbangsa Karawang | EQF Level 6 | Karawang, Indonesia

- Graduated cum laude with a GPA of 3.84.

Computer and Network Engineering

Jul 2019 - Jun 2022

SMKN 3 Karawang | Karawang, Indonesia

- Best Graduate in Computer and Network Engineering out of 100+ students; built a strong foundation in networking, server administration, and hardware troubleshooting.

CERTIFICATIONS & ACHIEVEMENTS

Junior Web Development - BPPTIK, Karawang (Aug 2023)

Web Developer - DITEKINDO, Karawang (Jan 2025)

3rd Place, Software Developer - PEKAN IT Competition (National), HIMTIKA (Oct 2023)

2nd Place, Software Developer - SEMANTIK Competition, HIMTIKA (Apr 2023)

PROJECTS

Online Test Unsika

Jun 2024 - Aug 2024

- Built a lightweight online examination platform for UPA Bahasa UNSIKA to replace the resource-heavy Moodle system, optimized for fast loading and low server strain.
- Deployed as the official platform for SEP-T (English Proficiency Test), a mandatory graduation requirement serving 1,500+ active students, and remains fully operational post-graduation.

E-Checksheet Pre Use

Mar 2025 - Jun 2025

- Digitized manual machinery pre-use inspections with a structured database for inspection logs, eliminating paperwork and improving auditor accessibility.

E-Checksheet APAR

Apr 2026 - Jun 2026

- Digitized fire safety asset inspections (APAR & Hydrant) for regulatory compliance, enabling the HSE team to generate real-time reports and cut manual auditing time.

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, Python

Frameworks: Laravel, CodeIgniter, MERN, Next.js

Databases: MySQL, SQL Server, MongoDB

Tools: MS. Office, Visual Studio Code, Git, Laragon

LANGUAGES

Indonesian: Native
